

# The WORLDS No.1 Shotshell Reloader

MEC 600Jr.Mk.5-350

9165 Euro kit for 2¾" & 3" Case for a MEC 600 Mk5-350 £38.25 dc. £4.00

Steelmaster 3½"

**MEC 600Jr. Mark 5** is the most popular shotshell reloading machine in the world. Simple and quick to use, it is capable of reloading 5 to 6 boxes an hour by a novice or experienced reloader. It includes many popular features found on the more expensive machines, like the self aligning spindex crimp starter head. Cases from 2½" to 3½" magnum can be loaded, but will depend upon the gauge used. Machines are available in gauges from .410 to 10 gauge, and they can be converted to any gauge from .410 to 10ga. An auto-primer feeder can also be fitted as an optional extra, but not on .410.

## 600Jr/Mk.5-350 3½" 12ga

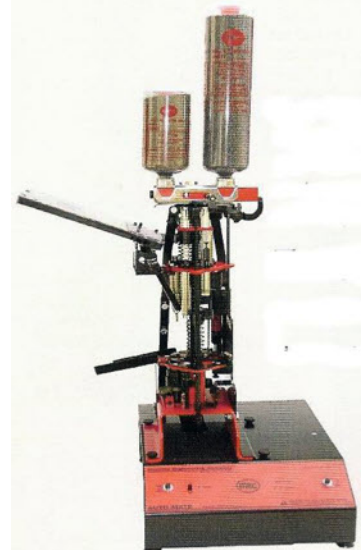

MEC of America have made exclusively for Clay&Game Reloaders their 600Jr/Mk5 in 3½" 12ga with a Steel Shot Bar for 1½oz and 3 powder bushings. This saves having to buy and fit a 3½" shot conversion kit & Steel shot bar, to a standard 600/Mk5, a saving of £71.50. A 9165 MEC/CGR Euro conversion kit is also available to load 2¾" & 3" cases without having to change the reloader settings.

- 8447 600Jr.Mk5-350EU 12ga All Lengths 2¾" to 3½" £278 dc. £14.90
- 8447 600Jr.Mk5-350 12ga 3½" £246.50 dc. £14.90
- 8447 600Jr.Mk5 10ga. £215.00 dc. £14.90
- 8447 600Jr.Mk.5 12, 20ga. £199.50 dc. £14.90

**MEC Steelmaster** is the supreme of the MEC single stage reloading machines. It's attribute is the highly accurate "Power Ring" collet resizer, returning every case back to the makers original specification. It also includes as standard the automatic primer feed system (Not in .410), and large shot container. Steelmaster's can also be converted to other gauges .410 to 10ga with a range of die sets that are available.

- 863912 12ga Steelmaster 3" £240.50 dc. £14.70
- 863910 10ga Steelmaster 3½" £349.00 dc. £14.90
- 875512 12ga Steelmaster 3½" £353.00 dc. £14.90

**MEC 9000GN** & 9000E series are for the enthusiastic high volume user. Featuring an Automatic spring-ram actuated rotating indexing system (Auto-Dex), Finished shell ejection, Power Ring collet resizing, three stage crimping, and the **NEW** lever actuated 200 capacity auto-primer feed tray. A MEC 9000GN has to be one of the finest shotshell reloading machines to own and work in the world. It's three stage crimp system gives the best looking finished crimp there is, being almost indistinguishable from a new crimp. It also features an automatic bar lock device, so that a single cartridge can be reloaded without causing any spillage. **9000E** is the Auto- Electric version of the 9000GN, all that is needed is a push of a button with no handle to pull down. Both models are available in gauges from 12 and 20ga. They are NOT convertible, and no die sets are made.

9000E in 20 & 12ga £1002.00,  
9000GN in 20 or 12ga £585.00  
dc. £14.90.
