

4 - 8 & 10ga Wads

8 Bore Wad

CGR/Gualandi 8 bore wads fit the new Winchester, and Fiocchi cases. Made in Italy their main use is to act as a gas sealing component for the heavy shot loads up to 3oz. It can also be used as the gas seal for the new CGR Biodegradable 8ga card cup which can be used for any type of shot currently known. See page 5. They are not recommended for use with black powder.
CGR 8 wads £17.50/250 p&p £4.75

CGR 8ga Biodegradable Card Cups

Environmental friendly biodegradable card cups are the answer for those restricted to shooting over a farmers land that respects ecological requirements. Card cups need a gas sealing component under them, in the form of an over-powder card. A felt wad or fibre wad can be placed between the card and card cup.

Card cups are available for Steel, POWER SHOT, ITM, ITX, or Lead shot in 8 gauge 8ga have an average Ø 0.836" and are 38mm length. **WAD80 £14.00/100 p&p £3.50**

8ga Compressible fibre, needs 3mm nitro card under for use.
WAD83 £10.00/250 p&p £4.25

CGR 4 Bore Card capped Felt wad is available in 4 bore 25.5mm/1.00" ONLY 10 mm high.
WAD42 £10.00/100 p&p £3.50

4 BORE

CGR 8ga 16mm Wax edge capped cork wads. The wax edge gives a good gas seal and has been demonstrated to reduce pressures for any given velocity. They are capped with paper making them bio-degradable and environmental friendly.
WAD84 £18.00/250 p&p £4.75

10 ga Wads

Multi-Metal & TPS Wads

CGR/BPI Multi-Metal & TPS Wads for 10ga will hold all forms of non-toxic shot currently available. Now pre-slit with taper shot cup and parabolic powder cup.

WAD101 10ga Multi Metal wad £23.00/100 p&p £4.75

WAD103 10ga TPS Wad £22.50/100 p&p £4.75

WAD105 10ga Card Cup £26.00/250 p&p £5.75

CGR 10ga Bio-Wad

Like the **CGE** 8ga environment friendly biodegradable card cup, the 10ga version is designed on the same principal. To protect a gun barrel from any abrasion caused by hard types of modern none-toxic shot. Being a shot carrier only it needs a gas sealing system under it to make it perform in the manner it is intended. For a full environment consideration it can be used with a nitro card and fibre wad under the cup, or it can be used with a plastic gas seal and column height adjustment felts. Types of shot and weights that can be used in Bio Card Cup are 60 grams ITM, 62 POWER SHOT, 44gr Tin, and 47gr 4.0 mm Steel shot. All need slitting almost to the bottom 4 ways before use. Ø is 0.795"/19.28 mm and 48 mm in length.

10ga Waxed Cork Wads

CGR 10ga 16mm Wax edge capped cork wads. The wax edge gives a good gas seal and has been demonstrated to reduce pressures for any given velocity. They are capped with paper making them bio-degradable and environmental friendly. Ideal for use with CGR 10ga card cups.
WAD106 £33.00/500 p&p £4.75

10ga CGR Soft compressible fibre, needs 3mm nitro card under for use.
WAD102 £23.50/500 p&p £4.75

10ga TEFLON Wraps

Teflon wraps are self lubricating, low friction, impact resistant, non-flammable. Ideal for barrel protection with Hevi-shot, Steel or ITM shot.

WRAP10 100 Teflon Wraps £9.00 dc £1.00
