CGR

Great News for Home Loaders

NEW 600Jr/Mk.5-350 in 3½ inch 12ga.

2¾" & 3" Case conversion kit for 600-350 12ga ONLY

MEC 600Jr/Mk.5

After friendly negotiations with MEC of America, they have agreed to make a special 600Jr.Mk.5 just for Clay&Game Reloaders. Now made in 10 and 12 gauges ready to go for 1½ oz of steel shot in 3½" European cases. These version of the 600Jr/Mk.5-350 are **NOT available in the USA or anywhere else.** They save having to buy and convert the standard 600Jr/Mk.5 12ga into a 3½" machine, and it saves you £48.00 with the 12ga and £32.50 with the 10ga.

There is also a case length conversion kit CGR/MEC #9165 Europe, for loading 2¾" & 3" PT cases on the 600/Mk5-350 in 12ga that only requires minor changes to the final crimp settings giving great versatility, at only **£38.25 p&p £3.75**

Both can also load **Lead Shot**, by using a Lead shot bar [£19.75] or a multi-shot type Multi-Scale Universal C/CS charge bar [£47.50].

CGR/MEC 600Jr/Mk5-350 12ga is £246.00 plus delivery if needed £14.90. Or as **600Jr/Mk5-350EU 12ga with case length conversion kit for 2¾" & 3" cases £278.00 + £14.90.**

Clay&Game Reloaders MEC 600/Mark5 10ga STEEL

CGR/MEC 3½" 10 gauge 600/Mk.5 STEEL

MEC 600Jr/Mk5 Standard models in 12, 20, 16, 20, 28, .410 are **£199.50, & 10ga £215.00** plus £14.90 delivery if needed. This increase is do to the manufactures price increase in the U.S.A. and the poor exchange rate of the £ against the \$, plus higher delivery charges from the U.S. All these are beyond Clay&Game Reloaders control.

BUDGET PRICE WAD

Exclusive to Clay&Game Reloaders the DC28 wad. Made in England, it is designed to hold 28 grams Lead shot, but having a double compression centre it can also be used to hold any load up to 32 grams. It has 3 gas sealing rings and 4 stand-off vertical bars to reduce bore frictional forces helping to maintain higher velocities.

WAD1217 CGR DC28 £11.00/500 p&p £7.50
WAD1217A CGR DC28 £19.00/1000 p&p £8.75

Digital POWDER & SHOT Scales for less than a Beam Scale

CGR are now importing digital powder/shot scales direct from China for less than you can buy beam balance scales from a dealer. They weigh up to 80 Grams or 1235 Grains in weight, battery operated [batteries included] and are small and compact with a Powder/Shot pouring pan. Accurate to 0.02 grains [35 thousandths of lb]. They have sealed Touch Screens to keep dirt out and direct switching from grams to grains and to ounces. **£39.50 plus p&p £3.25**

BEWARE HOLIDAYS

Clay&Game holiday for 2010 is:-
Tuesday 8th June until Monday 9th August.
The office will be closed at this time.
The house minder has no access to any stock, so please order before the above date or wait until after 9th August 2010.

.410 & 8ga De-Recapper

Clay&Game Reloaders are having a De-Recapper made for them in .410 and 8 gauges. It makes de-capping and re-capping a primer very easy with a small case.

.410 De-recapper £43.00 + p&p £4.75
8ga De-recapper £53.00 + p&p £5.75

Latest Products & Updates

EU 4.5mm STEEL Shot

Imported uncoated 4.5mm steel shot that's bright and round. There are 72 pellets to 28 grams which is 3 more than American BB. Being made in Europe it does cost more than the imported Chinese steel shot, but it is well formed and round. Cost £46.00/10kg plus delivery if needed.

New ITX Non-toxic Shot

Clay&Game Reloaders have now been appointed the U.K. suppliers of the new ITX tungsten based non-toxic shot. It has a similar mass to bismuth shot, but does not fragment or fracture when under acceleration forces. It is softer than steel or tungsten iron shot and cheaper to buy. 4 sizes are available 3.1mm No.4-E, 3.8mm No.2-A, 4.5mm BB-A, and 8.3mm 00 Buck-A. Cost £140.00 for 7lb [3.175kg] per sack + £14.70 delivery if needed.

New CD9 Reloading Data Guide

EUROPEAN Reloading Formulas

.410 to 8 bore

An updated 9th edition of my reloading formulas Guide on a CD is now available. All files are in a .pdf read only format divided into eight folders containing 128 pages. Including, Bushings & Universal Bar Charts, Shot Formulas by Gauge, and by Powder type, Non-Toxic Shot Formulas including POWER SHOT, ITM, & High Speed Steel loads, Tests & Analysis, also how 10ga Steel shot can give the same killing power as BB Lead shot at 62 yards, Weights & Conversions, and proof testing. Extrapolated muzzle velocities for some of the latest powder and shot tests. A menu of important warning for reloader's, plus many other interesting items. These include CIP regulation for Steel Shot, bushing charts, conversion charts, burn-rates, various tests for closures types, primer performance tests, and a great deal more useful information. CD9 includes educational loads for Steel Shot, some of which do not comply with CIP regulations. These should **not** be used in countries where statute laws for CIP regulations exist, which includes the UK and most of Europe. A file has been added on "How they Work" and "What's in" for Powder, Shot, Primers, RTO's and Wad. The unique **CD9 is now £30.00** inc. p&p, cheque or PO's should be made payable to **R I Charlton. Credit cards are not accepted for CD's.**
